

Group Members Names: _____ **Date:** _____

Research theme/question: _____

Not at all effective Moderately effective Very effective

Background & context (Was the research question anchored in broader issues relevant to speciation or macroevolution?)

Not at all effective Moderately effective Very effective

Were the research questions/hypotheses well articulated?

Not at all effective Moderately effective Very effective

Were the methods clearly presented and obviously related to the articulated hypotheses and predictions?

Not at all effective Moderately effective Very effective

Were the results well explained and the conclusions well justified?

Not at all effective Moderately effective Very effective

Overall I thought this seminar was ...
